Note that only 13% of the entire Thoroughbred population earn "A" ratings (A to A++) while 37% of stakes winners rate as "A's." Horses rated "B" or better (B to A++) represent just 30% of the entire population, yet three out of four (77%) stakes winners rate "B" or better. Almost half of Thoroughbreds in general — 44% — are on the low end of the scale (rated "C" through "F"), yet only two in 25 stakes winners (8%) have these lower ratings.

\*NR (No Rating) — into 3<sup>rd</sup> & 4th generations, there is not enough statistically significant evidence to calculate a rating.
